The State of Michigan's design and construction portfolio tops \$100 million annually. Learn how to compete for these contracts at a seminar for design and construction professionals.

Join representatives from the State of Michigan to learn:

- how to do business with the state and become a registered vendor.
- which elements are key to a competitive proposal and how to locate current bid solicitations.
- how you can bid on federal contracts.

This seminar is part of the Buy Michigan First program, an initiative that connects Michigan companies with opportunities to do business with the state. Buy Michigan First provides outstanding opportunity for small businesses and underrepresented vendor groups interested in doing business with the state.

Buy Michigan First partners include:
